

INTEGRATE PATIENT SAFETY AND EXPERIENCE, CLAIMS, COMPLIANCE, AND RISK MANAGEMENT

Healthcare provider organizations are under tremendous pressure to get it right every single time. But with fragmented, single-point systems, it's a struggle to effectively manage patient safety, complaints and grievances, claims, litigation, and regulatory compliance -- much less enterprise risk management.

CONNECT THE DOTS FOR BETTER RESULTS

Riskconnect's Healthcare solution allows you to seamlessly manage all of your safety and risk management initiatives. It improves the accuracy, speed, and actionability of data, while reducing your vendor and third-party risk.

INTEGRATES

Brings together traditionally insurable risks with strategic and operational risks into a single source of truth.

AUTOMATES

Captures critical safety data quickly, consistently, and accurately.

ANALYZES

Uses sophisticated analytics to turn complicated data into easily understandable and actionable information.

INTEGRATED RISK MANAGEMENT SOLUTIONS FOR HEALTHCARE ORGANIZATIONS

Riskconnect's integrated risk management solutions for healthcare organizations connect people, systems, and data for the clearest view of risk.

PATIENT SAFETY AND EVENT REPORTING

Captures patient, visitor, and employee event data right at the source to quickly and accurately get information to those who can investigate, evaluate, and take action to improve patient outcomes.

ROOT CAUSE ANALYSIS

Quickly identifies underlying issues so measures can be taken in time to prevent future events.

PATIENT EXPERIENCE

Captures patient and visitor feedback to manage expectations and resolve concerns in a timely manner.

PEER REVIEW

Manages the Focused Professional Practice Evaluation (FPPE) process of evaluating the privilege-specific competence of a practitioner.

CLAIMS ADMINISTRATION

Provides full support from first notice to adjudication, payment, and subrogation for organizations that manage their own claims or manage claims on behalf of others.

NON-CLINICAL ROUNDING

Assesses compliance with internal or external established standards, efficiently records data, and manages deficiencies and corrective actions for patient, visitor, and employee safety, environment of care, accreditation survey (or continuous) readiness, CDC infection control standards, and more.

REPORTING & ANALYTICS

Combines powerful analytics with intuitive and flexible report design tools to help you make better decisions around your patient safety and quality, risk, and claims data.
